Education

KIET Deemed to be University

B.Tech in Computer Science & Engineering (AI & ML)

Expected May 2028

CGPA: 8.27

Technical Skills

Languages: Python, SQL, C++

Machine Learning: Scikit-learn, XGBoost, SHAP, Cross-validation, Hyperparameter Tuning, Feature Engineering

Deep Learning & GenAI: PyTorch, Transformers, NLP, LangChain, RAG, Prompt Engineering

Data & Backend: Pandas, NumPy, FastAPI, SQLite, MySQL, Streamlit

Tools & Cloud: Git, AWS

Projects

PipelineGuardian – ML Experimentation Auditor

Jul 2026

GitHub | Live Demo

- Combined deterministic AST-based static analysis with LangChain-powered LLM reasoning to detect data leakage, reproducibility gaps, validation mismatches, and train-test split errors in ML notebooks and scripts.
- Delivered as a CLI, FastAPI backend, and Vercel-hosted web application with automated test coverage.

Tech: LangChain, FastAPI, Python AST, Pydantic, Groq, Pytest, Vercel

Transformer from Scratch – Neural Machine Translation

Jun 2026

GitHub

- Implemented the original Transformer architecture in PyTorch for English-German NMT with multi-head attention, positional encodings, and beam search decoding.
- Achieved **35.25 BLEU** on Multi30k and conducted a 12-configuration ablation study evaluating attention heads, model depth, and FFN dimensions.

Tech: PyTorch, NumPy, TorchText, Multi30k, SacreBLEU

InfraUrban – Urban Heat Intelligence Platform

Jan 2026 – Mar 2026

GitHub | Live Demo

- Trained an XGBoost heat-risk model across 24 zones in 6 Indian cities using forward time-split validation, improving RMSE by **61.9%** over a lag-1 baseline.
- Built an interactive Streamlit dashboard integrating SHAP explainability, warming trend analysis, and geospatial visualization.

Tech: XGBoost, SHAP, SQLite, Streamlit, Folium, Plotly

Leadership Experience

Chief of Staff – Doordripp Pvt. Ltd.

2026 – Present

- Direct cross-functional operations for a 32+ member organization spanning Founders, Leadership, Marketing, Technical, HR, and Creative functions.
- Architected the company's centralized workforce management and document-tracking system (automated formulas, validation logic, standardized workflows), replacing fragmented manual processes.

Problem Solving & Open Source

- Solved 100+ DSA problems on LeetCode spanning arrays, SQL, hashing, trees, and graph concepts.
- Contributed to Microsoft FLAML (4.4k+ stars) and render-engine, adding include/exclude glob filtering with test coverage; merged after four maintainer review rounds.

Certifications

AWS Certified Data Engineer – Associate | AWS Certified Machine Learning – Associate | AWS Certified Cloud Practitioner – Foundational
